Pub visitors suspected of Monument theft!

It has been uncovered by this reporter that there is a very good possibility the Norseman theft was carried out by none other than a member or members of dESPair. Rumour has it that several of the crew were gathered at Right's Sports Bar watching the hockey game and treating the locals to some beers. As the evening wore on discussions naturally turned to flying. Boys being boys there were more than a few tales told about piloting Norsemen. that he issued an order to Cpt. Brick and Cpt. Skybuster to stay clear of the monument.

DESPair CEO Cpt. Hak is appalled at such behavior. He denied that this was an act of malicious vandalism. He felt that it was more likely a prank on the part of Cpt. Brick and any accomplice he may have had. Saying that Cpt. Brick has an extreme love for old birdies and temptation must have overcome him.
